Dani,

I would like to have EA collect additional GPS data on well locations while you're sampling the filtration systems next week. EA staff will be available to accompany the TCEQ sampling team to the property. This would avoid having to gain access twice to the same properties. Please let me know if this is okay with you. Thanks.

---

Hi Vince

As we discussed on Friday, EA will mobilize a field team to the West County Road 112 Ground Water Plume site for the purposes of collecting better quality GPS coordinates for the tap water well locations. We will coordinate the GPS survey with TCEQ's tap water sampling event scheduled for the week of 21 February 2011. EA intends to mobilize to the site on Monday morning, 12 February 2011.

Please let me know if EA should provide Dani (TCEQ) with advanced notice.

Thanks
